(delete Exhibit 10 above and insert project # and name here)
Post Implementation Monitoring Report
Siuslaw Collaborative Watershed Restoration Program (SCWRP) Fund

Today's Date:
Project # WY:
Project Title:
Project Start and Completion Dates:
Project Manager:
Telephone & Email:
Organization Name:
Address:

1. Summarize project progress since project completion date.

- a. Describe any work completed since project completion date.
- b. Describe any re-occurrence of the problem since the project completion date, including those that might have impacted the project's effectiveness (culvert or plant failure, invasives, vandalism, etc.)

2. Project Evaluation

- a. Did obtained results differ from those expected? If so, were you still able to meet project goals?
- b. Evaluate the strengths and weaknesses of project methods, materials or assumptions.
- c. Recommendations on the implementation of future projects.

3. Press Coverage

- a. Describe any public awareness or educational activities, tours or presentation events related to the project. **Leave blank if not applicable.**
- b. If applicable, include copies of any articles (newspaper, newsletter, magazine, etc.) and website links featuring this project.

4. Photographs with Location Map

- a. Attach no more than 3-5 sets of before and after color photographs, 2 sets per page (landscape orientation).
- b. Label photos as photo points #1-5 and provide a scaled location map of exactly where the photos were taken. Name and date photos and label as: *Pre-Photo Point 1: (with name and photo date)* and *Post-Photo Point 1: (with same name and post photo date)*.
- c. Also include 2-3 overall project photos to provide a landscape view of major accomplishments.

Save Post Monitoring Report and all photos in one pdf file. Total file must not exceed 10 MB. Submit by email only annually by December 15 to Stewardship Program Assistant.
